

that there's been development of such weapons?

**The President.** Well, clearly, in terms of North Korea, we want North Korea to allow inspectors in, to determine whether or not they are. We've had that discussion with North Korea. I made it very clear to North Korea that in order for us to have relations with them, that we want to know, are they developing weapons of mass destruction? And they ought to stop proliferating.

So part of the war on terror is to deny terrorist weapons getting—I mean, weapons to be used for means of terror getting in the hands of nations that will use them. And so I'm not quite sure of the—

**Q.** I'm just asking if you've expanded your definition to countries who don't just harbor terrorists but also develop such weapons.

**The President.** Have I expanded the definition? I've always had that definition, as far as I'm concerned.

Yes, ma'am.

### **Pakistan**

**Q.** Mr. President, you've said a number of times you will go to all lengths to get members of Al Qaida. There's now news that Pakistan has airlifted some of its citizens back to Pakistan. Are you concerned that they may be taking members of Al Qaida and will not turn them over?

**The President.** No, I'm not. We've had good discussions with Pakistan. They understand the objective is to bring Al Qaida to justice, and they've indicated they'll help us do so.

All right, thank you all very much.

NOTE: The President spoke at 10:35 a.m. in the Rose Garden at the White House. In his remarks, he referred to Ms. Mercer's father, John Mercer; Danny Mulkey, assistant pastor, Antioch Community Church, Waco, TX; President Jose Maria Aznar of Spain; and President Saddam Hussein of Iraq.

### **Statement on Signing the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2002**

*November 26, 2001*

Today I have signed into law H.R. 2620, the "Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2002."

I appreciate the bipartisan effort that has gone into producing this Act. The Act abides by the agreed upon aggregate funding level for Fiscal Year 2002 of \$686 billion and supports several of my Administration's key initiatives with:

- \$955 million for the Veterans Affairs Duty to Assist initiative to improve performance in claims processing and assist veterans with their claims;
- \$160 million for the National Science Foundation Math and Science Partnerships initiative, which provides funds for States to join with institutions of higher education in strengthening math and science education in grades K–12; and
- \$50 million for the Housing and Urban Development Down Payment Assistance initiative that assists low-income families with the down payment on their first home.

Several additional initiatives I have proposed were worthy of funding but are not part of this bill: the Community Technology Centers and Improving Access programs in HUD, the Silver Scholarships and Veterans Mission for Youth programs under the Corporation for National and Community Service, and the VA/DOD Medical Care Choice initiative.

The Silver Scholarship Program would have provided Silver Scholarships to 10,000 older Americans who volunteer 500 hours of service tutoring and mentoring students in after-school programs. Each \$1,000 scholarship could be deposited in an education savings account for use by seniors' children,

grandchildren, or another child. The Veterans Mission for Youth program would have provided matching grants to community organizations that connect veterans and retired military personnel with America's youth through mentoring, tutoring, after-school, and other programs.

The VA/DoD Medical Care Choice initiative would ensure that all military retirees annually choose either the Department of Defense or the Department of Veterans Affairs as their health care provider. This would enhance quality and continuity of care and prevent duplication of services and costs.

Several provisions in the Act purport to require congressional approval before executive branch execution of aspects of the bill. My Administration will interpret such provisions to require notification only, since any other interpretation would contradict the Supreme Court ruling in *INS v. Chadha*.

**George W. Bush**

The White House,  
November 26, 2001.

NOTE: H.R. 2620, approved November 26, was assigned Public Law No. 107-73.

## Remarks Honoring the United States Nobel Laureates

*November 27, 2001*

Ambassador, thank you very much. Welcome. Dr. Marburger, thanks for putting this on. We're so honored that so many great Americans have shown up today. Laura and I are thrilled to not only greet you but host a reception after this brief dialog.

I want to welcome all the Nobel laureates, past and present. I want to thank Members of the Congress for being here. I want to thank members of my Cabinet for coming. And I am grateful that family and friends have joined such a distinguished crowd.

As the Ambassador said, for a century now the Nobel Prize has recognized human striving and accomplishment. Since 1901 more than 700 Nobel Prizes have been awarded, and a third of those to Americans.

Standing with me are seven of those who have been selected this year. Among their achievements are pathbreaking discoveries in

physics, helpful insights in the workings of the market economies, and a new treatment for Parkinson's disease. And all of America congratulates them.

Each Nobel laureate here today belongs to an incredibly select group of people. It includes the names of Martin Luther King, Jr.; George C. Marshall; T.S. Eliot; Albert Einstein; Vice President Charles Dawes; and President Theodore Roosevelt, the first American Nobel laureate, whose Peace Prize today occupies a place of honor in the West Wing of the White House.

Tomorrow I'll meet with the newest recipient of that prize, Secretary-General Kofi Annan. Several other Nobel laureates have visited the White House this year: Nelson Mandela, the Dalai Lama, Shimon Peres.

These folks come from different regions of the world, but the Nobel Foundation is never limited by region or culture. The standard is a universal one. It is awarded to men and women who have served the highest aspirations of humanity and have done so with success. Many awards recognize excellence; the Nobel Foundation recognizes greatness.

So much of human progress depends on achievements in medicine, physics, chemistry, economics, literature, and peace. The annual selection of the laureates expresses a profound optimism about humanity and our prospects for improvement. This optimism was captured by William Faulkner, when accepting his Nobel Prize a half century ago. "I believe," he said, "that man will not merely endure, he will prevail. He is immortal, not because he alone amongst creatures has an inexhaustible voice but because he has a soul, a spirit capable of compassion, sacrifice, and endurance."

Each of you, in your own field of excellence, has carried forward that same belief in human progress. You've achieved greatness through service to others. You have been given great gifts, and you've used them to your fullest.

Our Nation is proud of the work each of you have done. We're proud to count you as fellow citizens. We thank you for bringing credit to our country and great benefit to mankind.
